

Fun printing fact:

We have all this paper in inventory but I can never find a piece of paper to write on!

"All my friends know that I love to cook; I hope you enjoy my family's favorites."

Bruschetta

- 1 loaf French bread
- 6 garlic cloves, minced
- $\frac{1}{4}$ C olive oil
- 6 Roma Tomatoes
- $\frac{1}{2}$ C shredded parmesan cheese
- 4 tsp dried oregano
- 2 tsp dried basil

Slice the bread lengthwise once and cut each half in half the short way. Process the garlic and olive oil in a mini chopper until it is blended (15 seconds) and brush it on the open faces of the four bread pieces. Slice the tomatoes into rounds, silver dollar thick, and cover the bread. Sprinkle the oregano and basil evenly over the four pieces and then do the same with the cheese. Cook on a cookie sheet or foil under the broiler until the cheese melts and the edges of the bread just start to brown (5-15 minutes, depends on the oven).

CASS (Change of Address Support System) certification checks the addresses in your list to ensure that they are valid addresses in the USPS system.

NCOA checks the addresses against a National Change of Address list to ensure that your targets are not living somewhere else, and if they are, the address is corrected automatically.

Inexpensive steps that take relatively little extra time. Not only can they save you big money on print and postage, but they can return you better results because you start out with a current, viable mailing list. This is a small investment that can reap great returns!
